Local tap water is safe to drink

North-east Victoria has some of the best drinking water in the world. It is clean and safe to drink straight from the tap – you don't need to boil it or buy bottled water.

Drinking tap water will save you money and help to minimise pollution from plastic bottles.

Our tap water also contains nutrients and minerals that are good for you.

Tap water:

- is **clean and safe** to drink
- **costs around 2,000 times less** than bottled water
- **reduces plastic waste**
- is important for your **health and wellbeing**

Falls Creek supports building strong local communities and encourages a sustainable, healthy lifestyle.
